Simple & Powerful

Insignia's library automation system is feature rich and cost effective. Our user-friendly interface offers unparalleled features for libraries to manage their library items, assets, digital content, resources, and more.

Customizable

Insignia offers a customizable user experience. Each user can set preferences for shortcuts, layouts, and sizing. Customize your quick toolbar by using drag and drop to add shortcuts to your favorite features.

Intuitive & Easy

Insignia Library System is different than your average library software because we know how librarians work. Our workflows, features and system are designed by and built for librarians.
